Classes

Sorcerer. In their Active role, when casting a Sorcery-Type Spell, a Sorcerer may reroll up to 1 failed roll.

Mage. When casting a Spell, a Mage may spend an unspent Activation Point to reroll any number of dice. Mana Counters are a resource that represents mana - the energy required for casting Spells. Mana Counters can be spent to cover the price of Conjuration-type Spells or some other powerful Spells. When in the Active role, a Mage can convert any number of its Activation Points into the corresponding number of Mana Counters (replace Activation Points with Mana Counters) and place them in their personal pool. Mana counters are cumulative and do not disappear at the end of the turn!

Traits

Survival (Scorching Environment). This model is not affected by the Scorching Environment.

Affinity (Elder). A model with this Trait can cast (Elder) Spells. (For example: Elder = fire, water, profane, etc.)

Glossary

BURN (X). When a model suffers at least one Wound with this Trait, the attacking player may perform an X amount of Damage Rolls with ARM value 0. Every successful Damage Roll causes the model to suffer a Wound. If this wound causes a model to become Dead (State), the model is removed from the field.

Crouched. The Hitbox of a Crouched model becomes the size and volume of its base. While in this state, the model's Speed and Armor value is halved and its Attack Strike value becomes 1. Crouched models cannot make other models Engaged (state). During the movement step, a model in this state may only declare Walk or Idle. In the Active role, this state may be voluntarily canceled during the model's movement step. This state may also be canceled with a Dodge.

Ignore Armor. A Hit with this Trait reduces the hit model's ARM to 0 for the duration of the Damage roll.

Knockback (X). A model Hit with this Trait is moved from the point where its Movement ended during the Movement step. It is moved for X inches away from the attacker at the end of the Resolution step (exact direction is the attacker's choosing). This Trait does not affect models two or more Sizes larger than the attacker.

Knockdown. A model that suffers a Hit with this Trait becomes Crouched (State). This trait does not affect models two or more Sizes larger than the attacker.

Panicked. On a failed Intellect roll, the enemy model must also perform Walk towards the user for its entire Speed value (if able) at the end of the Activation Sequence. If it starts its turn Engaged it will declare Idle and Dodge. If the Movement of the model in this State would end past the edge of the field, the model is removed from play and counts as a loss. If the model fails the roll in its Reactive Role, it can only declare Dodge towards the edge of the field or Nothing as its Reaction.

Stun. A model that suffers at least one Wound with this Trait must perform a Toughness roll. If failed, the model loses all Activation Points (until the end of the turn).

Sweep. On a successful Attack roll, this model's Front arc becomes 360° for the remainder of the Activation Sequence. All models within this model's Melee RCH and LoS suffer a Hit.

Targetless. When in the Active role, an Attack with this Trait does not require a model as a target. Instead, the target can be any surface on the field. If the Spell has both Casting Aura and AoE Reach, and the target is a flat surface/ground, then the template must be placed wholly within the Casting Aura.

Throwing. An Item with this trait enables a Ranged Attack with RCH equal to the user's T. The STK value can be up to the Quantity of the Item. Upon use, remove QTY of the item equal to the STK, even if the Attack is unsuccessful. If the Attack incapacitates or kills the target model, you can recover the Item by making Base Contact with the target.
